### **Abstract**

The study aimed to survey the Sports Achievements of Football, Kabaddi, and Kho-Kho in the schools of Moradabad Commissionary. In this regard, the researcher surveyed 30 senior secondary level schools of the U.P. board, under the radius of Moradabad Commissionary. The random sampling method was used to select the schools for data collection. Copies of the survey scale with covering letters were given to the school principal/physical education teacher, requesting that they give correct and accurate answers and return them as soon as possible. As per the objectives of the study, the Percentage method was used to assess and analyze the data.

**Keywords:** Sports Achievements.

### **Introduction**

To enhance the image of the nation, games, and sports activities either on a competitive level or on a recreational level become essential at the National and International level. Games are also very helpful in developing character building, international friendship, and mutual understanding for health to lead a healthy and happy life. Therefore, promoting programs related to physical education and sports, and creating a sports environment in society should be the prime task of policymakers and executors. To get the fame at international level, it is essential to provide a high standard of coaching and facilitation of good equipment and diet. The favourable environmental factors of suitable facilities and coaching play an important role in shaping the growth of players' personalities. The level of participation and achievement, either single or combined, through interaction with each other always gives satisfactory results towards sports achievement.

### **Objectives**

- 1) To know the level of sports participation of physical education and sports staff available in the schools of Moradabad Commissionary.
- 2) To know the level of sports achievements of the Moradabad Commissionary schools.

## Methodology

In this regard, the researcher will go through a survey of 30 senior secondary level schools of the U.P. board, under the radius of Moradabad Commissioner. The random sampling method was used to select the schools for the collection of data.

## Procedure

According to the plan, the research scholar visited personally 30 senior secondary schools of the U.P. board under the radius of Moradabad Commissioner and took all the needful data after the approval of the competent authority of the school. First, the researcher went personally to every selected school to provide a complete explanation about the purpose of the study, after those related scales were handed over to every sample for the collection of data.

## Statistical Research design

Data collected from different respondents were analyzed in terms of percentage and were also present in the table.

## Results and Discussion

After the data was accumulated the research objectives were analyzed using percentage. The results are presented in the following tables:

**Table:1**

Responses of the Schools regarding the Sports Achievements in Football (Boys) at the District Level in 2021-22.

Category	Sports Achievements in Football (District Level)		
Year 2021-22	Participants	Non-Medalists	Medalists
Frequency	87	31	56
Percentage	100%	35.63%	64.37%

**Table:1:** Explaining that in the District Level Football Championship, 31 participants were non-medallists and 56 participants were medalists.

**Table:2**

Responses of the Schools regarding the Sports Achievements in Football (Boys) at the Regional Level in 2021-22.

Category	Sports Achievements in Football (Regional Level)		
Year 2021-22	Participants	Non-Medalists	Medalists
Frequency	42	15	27
Percentage	100%	35.71%	64.29%

### Discussion

1- In the year 2021-22, it has been observed that 87 students participated in the district level Football championship whereas 56 were the medalists. 42 students participated in the regional level Football championship whereas 27 were the medalists. 14 students participated at the state level whereas there were no medalists. In that year no students participated in the national level Football championship.

2- In the year 2022-23, it has been observed that 108 students participated in the district-level Football championship whereas 57 were the medalists, and 43 students participated in the regional level Football championship whereas 26 were the medalists. 12 students participated at the state level whereas there were no medalists. In that year no students participated in the national level Football championship.

3-In the year 2023-24, it has been observed that 114 students participated in the district-level Football championship whereas 66 were the medalists. 54 students participated in the regional level Football championship whereas 34 were the medalists. 15 students participated at the state level whereas there were no medalists. In that year no students participated in the national-level Football championship.

4- In the year 2021-22, a study shows that 87 students participated in the district-level Kabaddi championship whereas 56 were the medalists. 55 students participated in the regional level Kabaddi championship whereas 21 were the medalists. 5 students participated at the state level whereas there were no medalists. In that year no students participated in the national level Kabaddi championship.

5- In the year 2022-23, a study shows that 191 students participated in the district-level Kabaddi championship whereas 125 were the medalists. 62 students participated in the regional level Kabaddi championship whereas 27 were the medalists. 17 students participated at the state level whereas 3 were medalists. Only 1 student participated in the national-level Kabaddi championship.

6- In the year 2023-24, a study shows that 188 students participated in the district-level Kabaddi championship whereas 100 were the medalists. 67 students participated at the regional level whereas 31 were the medalists. 13 students participated at the state level whereas there were no medalists. In that year no student participated in the national-level Kabaddi championship.

7- In the year 2021-22, it has been concluded that, 90 students participated in District level Kho-Kho championship whereas 39 were the medalists. 17 students participated in regional level Kho-Kho whereas 5 were the medalists. In that year no students have participated in state level and national level Kho-Kho championship.

8- In the year 2022-23, it has been concluded that, 125 students participated in District level Kho-Kho championship whereas 58 were the medalists. 29 students participated in regional level Kho-Kho whereas 9 were the medalists. 5 students have participated in state level whereas there were no medalists. In that year no students participated in national level Kho-Kho championship.

9- In the year 2023-24, it has been concluded that, 133 students participated in District level Kho-Kho championship whereas 69 were the medalists. 39 students participated in regional level Kho-Kho whereas 14 were the medalists. 5 students have participated in state level whereas there were no medalists. In that year no students participated in national level Kho-Kho championship.

## Conclusion

The analysis of sports achievements over the academic years 2021-22, 2022-23, and 2023-24 reveals a gradual increase in participation and success at the district and regional levels across various sports disciplines. There was a marked improvement in the number of students participating in football, kabaddi, kho-kho. Notably, participation and medal tallies at the district level had consistently improved, reflecting the growing engagement and performance of students in competitive sports. However, the performance at state and national levels remains limited, with very few students advancing beyond regional competitions, and even fewer attaining medals at higher levels.
