The tasks set by the President on the formation of the spiritual world of man, the implementation of work aimed at educating a mature specialist and a perfect person are in the constant focus of our university officials as a topical and priority issue. To this end, the scope of spiritual, educational and moral work carried out at the university is wide. In particular, during 2020 in the field of civic education, political and legal education, ideological education, interethnic harmony and religious tolerance, the formation of a philosophy of healthy lifestyles and physical education, professional spirituality or in the field of environmental education, national values and traditions, national holidays, historical dates, celebrations of birthdays of great ancestors, visits to museums, theaters and historical sites to provide students with cultural recreation. Noteworthy work is being done. The Uzbek Center for the Study of Cultural Heritage Abroad and the Center for New History of Uzbekistan are being set up. Great attention is paid to the development of reading culture, culture and art, and creative schools and centers named after our great artists are being established in the regions. Systematic measures are being taken to further popularize folklore and amateur arts, and to develop innovative areas of culture and the arts. In this regard, President Shavkat Mirziyoyev said, "If culture and art do not develop in the country, society will not develop. It is important to develop the field of culture and arts, to increase the prestige of the Uzbek national culture and art in the world, to realize the potential of young talents. Indeed, when art and culture live, the nation and the people, the whole of humanity, live in peace." [1] Over the past period, the Republic of Uzbekistan has adopted a number of normative and legal acts on the development of

culture and arts. In particular, the Resolution of the President of the Republic of Uzbekistan No. PD - 3391 of November 17, 2017 “ On measures to further develop the art of the Uzbek national maqom”, August 26, 2018 Resolution No. PD - 3920 “ On measures for innovative development of the arts ”, Resolution No. PD-4038 of November 28, 2018 “ On approval of the Concept of further development of national culture in the Republic of Uzbekistan”, 2019 Resolution of the Cabinet of Ministers of the Republic of Uzbekistan No. 1019 of December 19, 2019 “ On approval of the Program for improving the activities of museums in the Republic of Uzbekistan in 2020-2021”, November 23, 2019 Resolution of the Government of the Republic of Uzbekistan dated July 26, 2019 “ On approval of the activities of the Erkin Vahidov Memorial Museum and the Treasury House-Museum ” Resolution of the Cabinet of Ministers No. 630 [2] of May 30, 2019 “ On the organization of the activities of the state museum-reserves Sarmishsay ”, “ Shahrizabz “, “Termez ” and “ Kokand ” Resolution of the Cabinet of Ministers of the Republic of Uzbekistan No. 443 of April 21 [3] , 2020 “ On measures to further increase the efficiency of the fine and applied arts” Resolution No. PD - 4688 of May 26, 2020 “ Culture Decree No. PD-6000 of May 23 [4], 2020 “ On measures to further enhance the role and influence of the arts in society ” Resolution of the Cabinet of Ministers of the Republic of Uzbekistan No. 325 of June 9, 2021 and “Martyrs’ Memory” Resolution of the Cabinet of Ministers of the Republic of Uzbekistan No. 357 of February 2, 2022 “ On support of the Moat Fund” The normative legal acts adopted, such as Resolution No. PD - 112 of the President of the Republic of Kazakhstan [5] are becoming increasingly important. Adoption of the above-mentioned normative legal acts is a complex measure to raise the spiritual and educational level of the people in the Republic of Uzbekistan, to strengthen the material and technical base of cultural and art institutions, to support the industry.

The family is the most important source of education. The school like is more active active active against the press and television. The reason is that the child first faces with family members and becomes pilgrims. The childhood of a person takes a long time to last a large part of this period passes in the family circle in the family. The benefits of science can not be fulfilled that is so much. Spirituality saves us from darkness Spirituality calls on the world of humanity, and will turn away from bad verbs from nonsense. Anyone who is blessed in the science is that a well-known man is because the leaders of the united science of the field of bright world are incentive to literature and art.

Cash includes education, then education and education is sponsored by itself. It is known that discipline is in its essence with its essence, it has a national universal and humanistic meaning. Every society dreams of raising the generation that unites all positive noble qualities in full swing. We will answer the question of what the education and the brain itself is, and the training in Teshakhsa is a practical pedagogical process aimed at the formation of moral and spiritual qualities. Teaching-learning measures to ensure the process of creating skills and skills is education and raising. The upbringing is the human human being and eternal value.[6]

Most of the most, the values of a person and society will move from one generation to another only because of education. In pedagogical literature, the term educational training is then used in the narrow sense. In the following sense, education and discipline is the sum of the efforts to ensure the active participation of a person in the social and educational life of the human personality. In a narrow sense, education and education is the main means of the physical development of the person worldview, spiritual moral image, preparation for aesthetic didding. Means pedagogical activity to drawn.

This is done in family and educational institutions. Education and education is a crucial role in the life of any society and any country. Education and education and discipline have been explained differently at different times of the development of society. Theory of education and upbringing will be studied in part of the pedagogical science, the essence, content, and methods, methods, and organization of the laws. [7]

Today, the general education media under the leadership of the President of Uzbekistan is many successful work of existing educational work, these are the following factors; Expanding educational, labor planning, performing workshop, school, family and public influential, and re-educating educational events in the school (individual group, formatual forms), along with re-educating educational events to be able to add and others.[8]

President Shavkat Mirziyayev is the UN Association in the 72 assembly of the 72th session, which is the need for the future of our planet , the president of our children is young people How and many conditions are creating, and in heaven is one of the attention we are paying attention to young people. When speaking about

education and upbringing, the words of Abdullah , the scholar of Abdullah , who is not right to us, either life, or a catastrophe. includes comprehensive moral criteria. So we need to understand the understanding of us, we should take advantage of the great breeds in the creation of the upgraduate past and inherited by the great zooms in the hereager. It is created on the basis of this and plays an important role in the upbringing of our children. The role of education and the role of education and the role of education is great for our work to achieve a harmoniously developed generation.
